

Suma[®] Break Up

Aluminium safe, heavy duty degreaser

Description

Suma Break Up D3.5 is a concentrated liquid degreaser for cleaning of heavily soiled surfaces in the kitchen.

Key properties

Suma Break Up D3.5 is an alkaline liquid detergent suitable for manual cleaning of all heavily soiled surfaces in the kitchen, like floors, equipment, cooker hoods and cooker tops. It is an optimal product for wetting of surfaces and effective removal of all kinds of grease and dried-on food. The formulation is balanced in such a way that the product is safe for use on aluminium surfaces.

Suma Break Up 3.5 is especially suitable for cleaning of floors either manually with a mop system or with low pressure spray equipment.

Benefits

- Powerful formulation cuts through heavy grease and leaves clean and shiny surfaces
- Dissolves soil and holds it in solution, preventing redeposition
- Formulated to be safe for use on aluminium
- Suitable for use in foaming equipment

Use instructions

Dose 10-30ml of Suma Break Up D3.5 per litre of hand hot water, dependent on the soil level and application.

For controlled dosing the product can be used via the Diversey Care QFM system.

Cleaning method - general

1. Apply solution (10-30ml/L) to surface with cloth, pad or low pressure spray equipment.
2. Clean with cloth or brush.
3. Rinse with clean water and allow to air dry.

Floor cleaning

With a mop:

1. Dilute product (10-30 ml/L) in hot water.
2. Apply the solution with a mop.
3. Clean and remove the dirt with a mop.
4. Rinse with clean water and allow to air dry.

With floor scrubber and squeegee / wet vacuum cleaner:

1. Dilute product (10-30 ml/L) in warm water.
2. Apply the solution with floor scrubber or with low pressure spray equipment.
3. Remove dirt with squeegee or wet vacuum cleaner.
4. Rinse with water and remove again with squeegee or wet vacuum cleaner.
