

TASKI® Ensign 360/460

Key features

- Super efficient and powerful twin motors
- Reliable
- Ease of servicing
- Versatility and convenience

Based on the ever popular Ensign 360 and Ensign 460, these machines are equipped with new smaller motors, which make the range more efficient.

Power and efficiency

- Powerful twin motor vacuum provides highly efficient performance
- Brush height for optimum efficiency on different carpets, electronic brush pressure display indicates the correct setting
- New electronics provide functional improvements, as well as brightness and clarity of display

Reliable

- Warning light indicates bag full or hose obstruction
- Electronic cut off and brush speed control prevents overloading and prolongs motor life
- Robust polypropylene body for maximum durability

Ease of servicing

- Easy change of replacement filters and filter bags ensure maximum efficiency at all times
- The brush strip can be changed tool-free, by the push of a button
- Clean out door underneath the machine allows the user to clear blockages

Versatility and convenience

- Extension hose for easy above floor cleaning as well as awkward corners, edges and upholstery
- Micro filter and three stage filtration allows use in dust sensitive areas, such as hospitals
