

# Waterless Ltd Body Wash

## 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

Product Name: Skin Cleansing, Body Wash  
Date Issued: 5th April 2022  
Use(s) of substance/preparation: A solution for washing the body without rinsing  
Company Name: Waterless Limited  
Unit 1 Viking Way  
Llansamlet  
Swansea  
UNITED KINGDOM - SA1 7DA

Telephone: 01453 357337

## 2. HAZARDS IDENTIFICATION

This preparation is not classified as 'Hazardous' according to the conventional method Directive 1999/45/EC and subsequent amendments.

**Eye contact:** Causes serious eye irritation if left untreated.

**Ingestion:** Ingestion may produce health damage.

**Skin Reaction:** May cause an allergic skin reaction.

REACH - Art.57-59: The mixture does not contain Substances of Very High Concern (SVHC) at the SDS print date. Dispose of contents/container in accordance with local regulations.

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

CAS Number: Not applicable, preparation is a mixture. Individual ingredient MSDS available upon request.

EINECS Number: Not applicable, preparation is a mixture. Individual ingredient MSDS available upon request.

Composition: An aqueous solution of a proprietary blend of nonionic surfactants, humectant, preservative system which is listed in Annex VI of Directive 76/768/EEC, foam booster, chelating agent and fragrance.

Ingredients: Aqua, Propylene Glycol, Caprylyl/Capryl Glucoside, Cocamidopropyl Betaine, Parfum, Phenoxyethanol, Sodium Benzoate, Citric Acid, Disodium EDTA, Limonene, Linalool, Citronellol

## 4. FIRST AID MEASURES

Avoid eye contact, rinse with water if contact occurs being careful where contact lenses apply. For children & sensitive skin areas, test before use and discontinue if irritation occurs. Children should be supervised. If any irritation occurs seek medical advice.

## 5. FIRE FIGHTING MEASURES

Extinguishing media: Water spray/fog, foam, carbon dioxide and dry powder.

Extinguishing media which must NOT be used: Water jet.

Standard protective equipment should be worn by fire fighters.

Protection of fire fighters: In the event of a large fire toxic fumes containing oxides of carbon and nitrogen may be formed, which would necessitate the use of a self-contained breathing apparatus.

## SECTION 6 ACCIDENTAL RELEASE MEASURES

Personal precautions: Avoid direct contact with the eyes.

Clean-up procedures: Absorb any preparation onto a suitable inert material, which should be collected mechanically with spilled product for subsequent disposal.

## 7. HANDLING AND STORAGE

Handling: No special measures required.

Storage: Store under normal warehouse conditions.

Packing as recommended by manufacturer.

Check all containers are clearly labeled and free from leaks.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure controls: No assigned values for the ingredients in this preparation.

Personal protective equipment: None required under normal conditions of use.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Very pale yellow, water thin liquid		
Physical state	Liquid	Relative density (Water = 1)	1.000
Odour	Characteristic	Partition coefficient n-octanol / water	Not Available
Odour threshold	Not Available	Auto-ignition temperature (°C)	Not Available
pH (as supplied)	5.50	Decomposition temperature	Not Available
Melting point / freezing point (°C)	-10	Viscosity (cSt)	Not Applicable
Initial boiling point and boiling range (°C)	>100	Molecular weight (g/mol)	Not Available
Flash point (°C)	Not Applicable	Taste	Not Available
Evaporation rate	Not Available	Explosive properties	Not Available
Flammability	Not Applicable	Oxidising properties	Not Available
Upper Explosive Limit (%)	Not Applicable	Surface Tension (dyn/cm or mN/m)	Not Available
Lower Explosive Limit (%)	Not Applicable	Volatile Component (%vol)	Not Available
Vapour pressure (kPa)	Not Available	Gas group	Not Available
Solubility in water (g/L)	Miscible	pH as a solution (1%)	Not Available
Vapour density (Air = 1)	Not Available	VOC g/L	33.97069604

## 10. STABILITY AND REACTIVITY

This preparation is stable under normal conditions of storage and use and no chemical incompatibility is known.

## 11. TOXICOLOGICAL INFORMATION

**This product is a cosmetic product intended for skincare use. Essentially non-toxic**

**Inhaled:** The material is NOT thought to produce adverse health effects or irritation of the respiratory tract (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable control measures be used in an occupational setting.

**Ingestion:** The material has NOT been classified by EC Directives or other classification systems as "harmful by ingestion". This is because of the lack of corroborating animal or human evidence.

**Skin Contact:** The material is NOT thought to produce adverse health effects or skin irritation following contact (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable gloves be used in an occupational setting.

**Eye:** Although the liquid is NOT thought to be an irritant (as classified by EC Directives), direct contact with the eye may produce transient discomfort characterised by tearing or conjunctival redness (as with windburn).

**Chronic:** Skin contact with the material is more likely to cause a sensitisation reaction in some persons compared to the general population. Propylene glycol is thought, by some, to be a sensitising principal following the regular use of topical creams by eczema patients in neat form. There is limited evidence that, skin contact with this product is more likely to cause a sensitisation reaction in some persons compared to the general population.

## 12. ECOLOGICAL INFORMATION

Based on the ingredients present and their concentrations, this preparation is, according to the conventional method of Directive 1999/45/EC and subsequent amendments, classified as 'SAFE' to the environment.

## 13 DISPOSAL CONSIDERATIONS

Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked.

#### **14. TRANSPORT INFORMATION**

This preparation is not classified as "Hazardous" for transport purposes.

#### **15. REGULATORY INFORMATION**

This preparation is not classified as 'Hazardous' for labelling purposes.

Ingredients: Aqua (Water), Propylene Glycol, Caprylyl/Capryl Glucoside, Cocamidopropyl Betaine, Phenoxyethanol, Sodium Benzoate, Citric Acid, Disodium EDTA, Parfum (Fragrance), Limonene, Linalool, Citronellol

Individual Levels available upon request for regulatory purposes

this formulation has been taken into consideration the general toxicological profile of each ingredient used, the chemical structure, the CIR panel evaluation where available, the level of exposure (full technical data and/or toxicology files are held for each ingredient) and a total daily exposure has been calculated along with the margins of safety for each ingredient. As a result of our evaluation the product has been classified as: SAFE.

#### **16. OTHER INFORMATION**

Issue date: 5th April 2022

This Safety Data Sheet, which takes into consideration the requirements of Directive No1223/2009 plus subsequent amendments and further regulations. It is believed to be correct and corresponds to the latest state of scientific/technical knowledge but all data, instructions, recommendations and/or suggestions are made without guarantee.
